## 2. THE PROJECT

2.1. The COBINHOOD exchange platform (the “Platform”) is a zero trading fee cryptocurrency exchange, programmed via Golang, hosted on the Google Cloud Platform. With COBINHOOD’s Real-Time Trade Matching Engine, the Platform is able to handle 1M+ transactions per second, while featuring micro-second level of latency during large-scale trading activities. The intention of the Platform is to help traders grasp the entirety of their potential regarding cryptocurrency transactions and to bring forth a seamless user experience with a sufficiently transparent transactional process.

2.2. For all details related to COBINHOOD’s COB token, users should reference and refer to COBINHOOD’s Whitepaper.

2.3. The User understands and accepts that the Project is currently in alpha development phase and requires substantial development work. Due to unforeseeable material conceptual, technical and commercial changes before the final release, or any time after the release of the Platform, The User understands and accepts that an upgrade of Platform and/or COB token may be required (hard-fork of COB) and that, if the User decides not to participate in such upgrade, he may no longer use his COB tokens and that non-upgraded COB tokens may completely lose their functionality.

## 3. COB TOKEN STRUCTURE AND PERTAINING HOLDERS’ RIGHTS

3.1. COB Token will be ERC-20 standard Ethereum token.

3.2. COB Token smart contract address will be published in due time prior to COB Token distribution.

- 3.3. COB Token carries no rights, express or implied, other than those, set out herein, if COBINHOOD successfully completes and deploys the Project. In particular, COB Token holders shall not have any influence in the development or governance of COBINHOOD, and COB Token do not represent or constitute any ownership right or stake, share or security or equivalent rights or any right to receive future revenue shares issued by COBINHOOD, or any other form of participation in or relating to COBINHOOD. Any governance rights pertaining to COB Tokens, are governance rights in the Platform, created in the Platform, and shall not in any way be understood as legal governance rights in the COBINHOOD as an entity or any of its affiliates.
- 3.4. COB Tokens are designed to be exchangeable on cryptographic token exchanges. COBINHOOD gives no warranties that COB Tokens will be exchangeable on bigger exchanges, but undertakes on the best effort basis to do everything that is reasonably possible and within the powers of COBINHOOD to enable exchanges of COB Tokens to take place on as many exchanges as possible.

#### 4. COBINHOOD TOKEN (COB Token) DISTRIBUTION

- 4.1. Contributions, given to COBINHOOD in exchange for COB Tokens shall be considered as gratuitous financial contributions. Contributions can only be done in Digital Assets. Failure to follow the instructions on the Website may limit, delay, or prevent a user from making such contribution. The User understands and accepts that he makes a contribution into a smart contract system on Ethereum and receives COB Tokens in return.
- 4.2. The detailed rules of making contributions and receiving rewards are referenced in COBINHOOD's Whitepaper. In the unlikely case of any discrepancies or inconsistencies between COBINHOOD's Whitepaper and these terms, COBINHOOD's Whitepaper shall prevail.
- 4.3. COBINHOOD reserves the rights to change the schedule of the Project, at any given time due to technical or organizational reasons, without any duty to provide explanation to the users or the public. Any such changes will be published on the Website.

- 4.4. All records of the Users' contribution for COB Tokens will be publicly viewable on any Ethereum blockchain explorer like etherscan.io. For users contributing Bitcoins, the COB Tokens will be owned by the Ethereum address provided by that contributing user.
- 4.5. COB Token distribution will be made available only through the Website. No third-party website or different provider is allowed or has been in any way supported, engaged, authorized or endorsed by COBINHOOD and have no relationship in any way with COBINHOOD. The only official and authorized website and COB Tokens distribution provider is the Website. You must ensure that the URL of your web browser indicates that it is using a hypertext transport protocol secure connection ("https") and that the domain name is correct. COBINHOOD may partner with third party service provider to enable easier distribution of COB Tokens with Digital Assets other than Ether.
- 4.6. All contributions to COBINHOOD for COB Tokens are final and will not be returned to the contributing users. By participating in the COB Token distribution, you acknowledge that COBINHOOD is not required to return the contributions received for any reason, and that you will not receive money or other compensation in lieu of a return of the contributions.
- 4.7. The COB Token is not a consumer product and its users accepts explicitly and agree to it that they are not covered by the consumer protection regulation of any jurisdiction.
- 4.8. COBINHOOD reserves the right to an emergency stop functionality to stop the distribution process. Use of this functionality shall remain in discretion of COBINHOOD and shall only be used in limited situations, such as, but not limited to: i) serious cyber-security issue detected, ii) serious network performance issue, depriving all users of equal treatment, iii) any type of material attack on the COB Tokens, the Platform, Website or Ethereum network.
- 4.9. Users, wishing to participate in the token distribution, will agree to send their Digital Assets for acquisition of COB Tokens from an Ethereum address wallet, for which they control the private key, whereas such address shall not belong to a Digital Assets exchange. Users will receive their COB Tokens to the same address, from where they sent the Digital Assets.

- 4.10. The contribution received from the COB token distribution will belong to COBINHOOD and will be used exclusively for the development and running of the Project, as defined above.

## 5. RISKS

- 5.1. You understand that Digital Assets, COB Token, blockchain technology, Ethereum, Ether and other associated and related technologies are new and untested and outside of COBINHOOD's exclusive control and adverse changes in market forces or the technology, broadly construed, may prejudice or halt COBINHOOD's performance under these Terms and in such event COBINHOOD will not be responsible for the non-performance.
- 5.2. In addition to the above, you also acknowledge that you have been warned of the following risks, associated with the Website, Digital Assets, COB Tokens, the Platform and other relevant technologies mentioned herein:

### **(a) Legal risks regarding securities regulations**

There is a risk that in some jurisdictions the COB Tokens and other Digital Assets may be considered to be a security, or that it may be considered to be a security in the future due to subsequent changes in relevant laws. COBINHOOD does not give warranties or guarantees that COB Tokens are not a security in all jurisdictions. Each user of COB Tokens shall bear its own legal or financial consequences of COB Tokens being considered a security in their respective jurisdiction. Every user is bound to check if acquisition and disposition of COB Tokens is legal in its jurisdiction, and by accepting these Terms each user undertakes not to use COB Tokens should their use not be legal in the relevant jurisdiction. If a user has any question that the use of COB Token under these Terms is not legal in his/her/its jurisdiction, that user should not use the COB token, not acquire them and should immediately stop using or possessing them if such case arises. Acquiring cryptographic tokens in possession and exchanging them for other cryptographic tokens will most likely continue to be scrutinized by various regulatory bodies around the world, which has so far given mixed reactions and regulatory impact. The legal ability of COBINHOOD to provide COBINHOOD Tokens and the Platform in some jurisdictions may be restricted or eliminated by future regulation or legal actions. In the event, it turns out with a

high degree certainty that COB Tokens are not legal in certain jurisdiction, COBINHOOD will either a) cease operations in that jurisdiction, or b) adjust COB Tokens and the Platform in a way to comply with the regulation should that be possible and viable.

**(b) Risks associated with Ethereum**

COB tokens are based on Ethereum blockchain. As such, any malfunction, unintended function or unexpected functioning of the Ethereum protocol may cause the COB Tokens to malfunction or function in an unexpected or unintended manner. Ether, the native unit of account of the Ethereum may itself lose value in ways similar to COB Tokens, and also other ways. More information about the Ethereum is available at [http:// www.ethereum.org](http://www.ethereum.org).

**(c) Risk of unfavorable regulatory action in one or more jurisdictions**

Blockchain technologies have been the subject of scrutiny by various regulatory bodies around the world. The functioning of the Ethereum network and associated blockchain networks and Digital Assets and COB Tokens could be impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of digital tokens like COB Tokens, which could impede or limit their existence, permissibility of their use and possession, and their value.

**(d) Risk of theft and hacking**

Hackers or other groups or organizations may attempt to interfere with your Third-party Wallet, the Website or the availability of COB Tokens and Digital Assets in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks.

**(e) Risk of security weaknesses in the Website and COB tokens source code or any associated software and/or infrastructure**

There is a risk that the Website and COB Tokens may unintentionally include weaknesses or bugs in the source code interfering with the use of or causing the loss of COB Tokens.

**(f) Risk of weaknesses or exploitable breakthroughs in the field of cryptography**

Advances in cryptography, or technical advances such as the development of quantum computers, could present risks to cryptocurrencies, Ethereum, COB Tokens, the Platform, which could result in the theft or loss of COB tokens.

**(g) Risk of mining attacks**

As with other decentralized cryptocurrencies, Ethereum blockchain, which is used for the COB Tokens, is susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, “selfish-mining” attacks, and race condition attacks. Any successful attacks present a risk to the COB Tokens, expected proper execution and sequencing of COB tokens, and expected proper execution and sequencing of Ethereum contract computations in general. Despite the efforts of COBINHOOD and Ethereum Foundation, the risk of known or novel mining attacks exists. Mining Attacks, as described above, may also target other blockchain networks, with which the COBIN Tokens interact with and consequently the COB Tokens may be impacted also in that way to the extent, described above.

**(h) Risk of loss of value**

COB Tokens have no intrinsic value, and its exchange value may fluctuate and their users might suffer loss in value of such acquired tokens. There might be different reasons that would cause unfavourable fluctuations of the value of the COB Tokens.

**(i) Risk of uninsured losses**

COB Tokens are entirely uninsured, unlike bank accounts or accounts at some other financial institutions.

**(j) Risk of malfunction in the Ethereum network or any other blockchain**

It is possible that the Ethereum network or any other network, to which the COB Tokens are interacting with, malfunctions in an unfavourable way, including but not limited to one that results in the loss of COB Tokens.

**(k) Internet transmission risk**

You acknowledge that there are risks associated with using the COB Tokens including, but not limited to, the failure of hardware, software, and Internet connections. You acknowledge that COBINHOOD shall not be responsible for any communication failures, disruptions, errors, distortions or delays you may experience when using the Website and COB tokens, howsoever caused.

**(l) Unanticipated risks**

Cryptocurrencies and blockchains are new and untested technologies. In addition to the risks set forth here, there are risks that COBINHOOD cannot foresee and it is unreasonable to believe that such risks could have been foreseeable. Risks may further materialize as unanticipated.

**(m) Insufficient interest in COBINHOOD, the Platform and COB tokens**

It is possible that COBINHOOD, COB Token or Platform will not be used by a large number of individuals, businesses and other organizations and that there will be limited public interest in the creation and development of its functionalities. Such a lack of interest could impact the development of the Platform.

**(n) COB token and the Platform, as developed, may not meet your expectations**

The Platform is currently under development and may undergo significant changes before release. Your expectations regarding the form and functionality of the Platform and COB Tokens may not be met upon release of new Website, deployment of the Platform, additional products and services for any number of reasons, including a change in the design and implementation plans and execution of the implementation of COB Token.

**(o) The Platform may never be completed or released**

The Platform, described in section 2, may never be released and operational, even though COBINHOOD will make reasonable efforts to complete and deploy it.

**(p) Risks related to partnering projects**

COBINHOOD is partnering with a number of other existing projects to integrate their solutions and technology into the Platform (in addition to Ethereum). Unexpected negative events, such as slower development, technological issues and challenges, bugs may occur within such projects and consequently COBINHOOD may not be able to meet its undertakings, or will meet its goals at a later stage, or will functionality of the Platform be interrupted. Even though COBINHOOD believes in the quality of its partners and will undertake all reasonably expected and possible actions to mitigate and prevent such risks, COBINHOOD cannot be held liable for any events arising out of its partners' misrepresentation, lack of ability to deliver or change of their development plans.

**(q) Investment Risk**

Financial and operating risks confronting startups are significant and COBINHOOD is no exception. The startup market in which COBINHOOD competes is highly competitive and the percentage of companies that survive and prosper is small. Startups often experience unexpected problems in the areas of product development, marketing, financing, and general management, among others, which frequently cannot be solved. In addition, startups may require substantial amounts of financing, which may not be available through institutional private placements, the public markets or otherwise.

**(r) Tax Risk**

The tax characterization of the COB Tokens is uncertain, and each user must seek its own tax advice in connection with an acquisition of the COB Tokens. An acquisition of the COB Tokens pursuant thereto may result in adverse tax consequences to Investors, including income taxes and tax reporting requirements. Each user should consult with and must rely upon the advice of its own professional tax advisors.

**(s) Regulatory Risk Associated with the Project**

Regulation of tokens (including the COB Tokens) and token offerings such as this, cryptocurrencies, blockchain technologies, and cryptocurrency exchanges currently is undeveloped and likely to rapidly evolve, varies significantly among international, national and local jurisdictions and is subject to significant

uncertainty. The regulation of non-currency use of blockchain assets is also uncertain. The United States Commodity and Futures Trade Commission has publicly taken the position that certain blockchain assets are commodities, and the United States Securities Exchange Commission has issued a public report stating federal securities laws require treating some blockchain assets as securities, and Blockchain networks also face an uncertain regulatory landscape in many foreign jurisdictions such as the European Union, Taiwan, China and Russia. The Project intends to establish the Platform for the trading, listing and underwriting non-currency blockchain tokens and may in the future be treated as a commodity and future exchange and/or securities exchange by the regulatory authorities in one or more jurisdictions, and in such case, the operation of the Platform may be disrupted, hindered or restricted by regulatory orders to apply for registration or becoming licensed as an exchange before the Platform can continue operation as originally planned.

- 5.3. The COB tokens and the Platform are provided “as is”. COBINHOOD and its affiliates and licensors make no representations or warranties of any kind, whether express, implied, statutory or otherwise regarding the COB Tokens, including any warranty that the COB Tokens will be uninterrupted, error free or free of harmful components, secure or not otherwise lost or damaged. Except to the extent prohibited by law, we and our affiliates and licensors disclaim all warranties, including any implied warranties of merchantability, satisfactory quality, fitness for a particular purpose, non-infringement, or quiet enjoyment, and any warranties arising out of any course of dealing or usage of trade.

## 6. ELIGIBILITY

- 6.1. The Website, the Platform and COB Tokens are not publicly offered for use to natural and legal persons, having their habitual residence or their seat of incorporation in the following countries: i) Canada; ii) People’s Republic of China ;iii) the United States; iv) Taiwan; and (v); and countries listed on OFAC sanctions lists (“Restricted Areas”). For any user who is a natural or a legal person having their habitual residence or their seat of incorporation outside the Restricted Areas, such user must have knowledge and experience in financial and business matters that he/she is capable of evaluating the merits and risks relating to the Project and meet the definition of “accredited investor”, “sophisticated investor”

COBINHOOD consequently explicitly prohibits persons from paragraph 6.1 from using the COB Tokens. COBINHOOD shall not be held liable for any legal or monetary consequence arising of such use. Such persons using COBINHOOD tokens despite the prohibition shall on first request indemnify and hold harmless COBINHOOD from any legal or monetary consequence arising of their breach of the terms as described in this paragraph 6.3. Any person, matching the criteria from paragraph 6.1, shall immediately stop using COB Tokens and leave the Website.

- (l) you are acquiring COB Tokens to access the Platform and to support its development, testing, deployment and operation; and that you are not acquiring COB Tokens for any other uses or purposes, including, but not limited to, any investment, speculative or other financial purposes; and
- (m) your contribution in return of COB Tokens complies with applicable law and regulation in your jurisdiction, including, but not limited to, (i) legal capacity and any other threshold requirements in your jurisdiction for purchasing the Tokens, using the Tokens in the Platform, and entering into contracts with us, (ii) any

foreign exchange or regulatory restrictions applicable to such purchase, and (iii) any governmental or other consents that may need to be obtained.

## 7. FINANCIAL REGULATION AND COOPERATION WITH LEGAL AUTHORITIES AND AUTHORIZED FINANCIAL INSTITUTIONS AND REGULATORS

- 7.1. The COB Tokens and the Platform are unregulated.
